REPLY TO RESTRICTION REQUIREMENT

Honorable Commissioner for Patents  
Washington, D.C. 20231

Sir:

Applicants first request the PTO to correct applicant's "attorney docket" i.d. The correct attorney docket for this case is SAIJO = 7.

The present application is U.S. national phase PCT/JP00/03746 filed June 9, 2000, and applicants have claimed priority from their Japanese application 11/164454 filed June 10, 1999. The PTO should have received a copy of applicants' Japanese priority application from the International Bureau. Accordingly, applicants respectfully request the PTO the acknowledge receipt of applicants' papers filed under \$119.

Applicants are in receipt of the Office Action mailed December 13, 2002, entirely in the nature of a restriction requirement. In response thereto, applicants hereby respectfully and provisionally elect Group I directed to a clad plate and presently comprising claims 1-4 and 8,

without prejudice and without traverse. Thus, applicants accept the PTO ruling that the inventions are patentably distinct from one another, i.e. that each is patentable over the other.

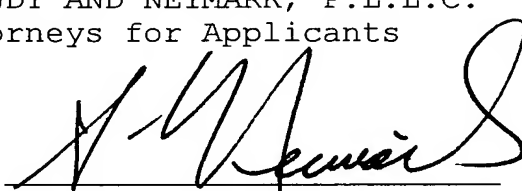

Consequently, if the examiner finds the elected claims to be patentable, the examiner is hereby authorized to cancel the non-elected claims by Examiner's Amendment without of course any prejudice to the present invention or to applicants' rights, including those rights provided by §§121, 120 and 119, to proceed with a divisional application on the presently non-elected subject matter, without any penalty whatsoever.

Applicants respectfully await the results of a first examination on the merits of the elected claims directed to the clad plate.

Respectfully submitted,
